

The **Southern California ASA Players Association** has developed a **NETWORK SYSTEM**, which will allow college coaches searching for talented softball players to access detailed information on specific players. This background information will contain player positions, GPA, SAT scores, travel ball team history, along with personal data. All Southern California players from the 16u, 18u, & 18u GOLD divisions are on file, most players have videotapes available for viewing.

This NETWORK SYSTEM IS FREE TO ALL COLLEGE COACHES!

This is an excellent source for colleges in search of high caliber talent. Our goal is to place all of our talented girls in an excellent college program..

To obtain Player information simply fill out the bottom portion of this form and return it to the **ASA PLAYER'S ASSOCIATION** and we will be happy to provide you with the Players names.
